The rehab team members work with you and your family. They help you to set goals and to you to reach them.

**Attending Doctor** – Directs your care – orders treatment, medication, and tests. Explains your care and answers your questions.

**Rehab Doctor** – Directs your rehab plan of care and oversees your therapy program. Also explains your care and answers any questions that you may have.

**Rehab Nurse** – Coordinates your rehab program and care. Teaches you and your family members about your care.

**Physical Therapist** – Works with you to improve your movement and increase your independence in bed and wheelchair mobility, transfers, walking, and exercise.

**Occupational Therapist** – Helps you learn to handle your self-care, homemaking, leisure activities, and work tasks. Takes into account the activities you want to do in your daily life.

**Speech Therapist** – Works with you to improve your swallowing, speaking, listening, reading, and thinking skills.

**Social Worker** – Helps you and your family set up a support system and plan for discharge.

**Dietitian** – Assists you to meet your nutritional needs and teaches you and your family about special diets.

**Chaplain** – Offers spiritual and emotional support.

**Therapeutic Recreation** – Uses recreation and leisure to help you make the most of your life.
