FOR IMMEDIATE RELEASE

## **2009 Mount Carmel College of Nursing Commencement Celebrates Graduates**

*More than 130 students received nursing degrees at ceremonies held May 9*

Columbus, Ohio... "*Pomp and Circumstance*" celebrated the arrival of Mount Carmel College of Nursing's class of 2009 at ceremonies held on Saturday, May 9.

At the event, 131 graduates received their Bachelor of Science in Nursing (BSN) degrees and two graduates accepted their Master of Science degrees at Mount Carmel College of Nursing (MCCN) commencement ceremonies held at First Church of God in Columbus.

"Our goal at Mount Carmel is to bring the promise of the nursing profession to as many qualified students as we can," says Ann Schiele, PhD, RN, President/Dean, Mount Carmel. "This year's Commencement celebrates the achievements of our students---men and women who are now realizing their dreams of becoming professional nurses."

Among the largest baccalaureate nursing programs in the State of Ohio, MCCN has educated nurses for more than a century. MCCN has experienced record growth in the last decade and now numbers more than 700 students.

Affiliation with Mount Carmel Health System, which operates four hospitals and several medical facilities in central Ohio, guarantees MCCN students numerous hands-on clinical opportunities.
