>> REALIZE THE DREAM

Mount Carmel offers small classes, one-on-one instruction and the opportunity to form lifelong friendships. A variety of co-curricular activities exist to enrich the college experience.

Mount Carmel College of Nursing is a subsidiary of Mount Carmel Health and boasts one of the largest undergraduate nursing programs among all Ohio private colleges with nursing programs. The learning is enhanced by experiences and opportunities made possible by our inclusion in Mount Carmel Health System, an integrated delivery system.

“I like MCCN for the small class size, the friendly atmosphere, and the one on one attention from instructors. I am realizing the dream at Mount Carmel College of Nursing.”
