Project BRIGHT Updates:

Chairs for Patient Rooms
The hospital plans to purchase new chairs for patient rooms and is in need of employee input. Between now and Friday, Dec. 13, employees are invited to stop by room 400 on the fourth floor at any time to test out three different chairs. Feedback forms are located in the room so employees can rate each chair based on comfort, size, design, etc. Materials Management Manager Paul Bateson said he has already gathered some feedback from community members and patients and would like to get more feedback from employees, particularly clinical staff. The new chairs will go inside current patient rooms beginning the first quarter of 2014, as well as the patient rooms in the new building.

Want to See the Progress We Have Made?
Make sure to visit www.fmchealth.org to see a time lapse of the construction site. Or use your smartphone to scan the QR code to the right. This feature, which is supported through an interactive webcam system called TrueLook, allows users to zoom in on different areas of the site, request recent still photos and share those images through social media.
